# Company Profile

## Ethiopia: the next hub for apparel sourcing

Ethiopia's textile and garment sector is back on track. With a young and vibrant population of 115 million, rapid development, abundant competitive labour force and duty-free access to the European Union (EBA) and African Continental Free Trade Area (AfCTA), the country is a promising haven for foreign investment. In line with Ethiopia's industrialization strategy, the growth of light manufacturing to boost exports and job creation remains the core priority.

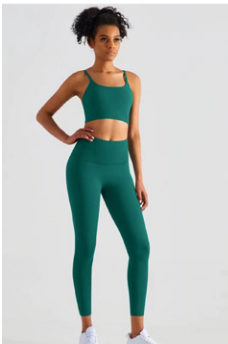

To support local businesses in accessing the global market, it is essential to establish stronger business connections with international buyers. That's where the Sustainable Industrial Clusters (S.I.C.) II project, implemented by GIZ on behalf of the German and British governments in collaboration with the Ethiopian Ministry of Industry and Ethiopian Investment Commission, comes in. The project is hosting nine local and international factories operating in Ethiopia at the Texworld Evolution Paris fair. The diligently selected companies will exhibit their apparel and fabric products under the theme of "Made In Ethiopia" to network with international buyers and establish new business linkages.

# Partners

## Government Partners

### **Ministry of Industry (MoI)**

The Ministry of Industry (MoI) has a mission to promote and expand the development of the industry sector by creating a conducive and enabling environment for investment and technological capacity development. The MoI is responsible for formulating policies, strategies, programs, and legal frameworks that ensure the sustainable development of the manufacturing industry.

One notable initiative led by the MoI is the 'Ethiopia Tamirt' movement. It is intended to increase the competitiveness of Ethiopian-made goods in both domestic and international markets, which will have significant benefits for the country's economy.

### **Ethiopian Investment Commission (EIC)**

The Ethiopian Investment Commission (EIC) is an independent government agency tasked with promoting investment opportunities and conditions to both foreign and domestic investors. Among its main services are the issuance of investment permits, business licenses, and construction permits.

### **The Industrial Parks Development Corporation (IPDC)**

The Industrial Parks Development Corporation (IPDC) is a public enterprise established in 2014 with the objective of driving rapid industrialization and fostering the growth of manufacturing industries.

To facilitate pre- and post-investment servicing, IPDC provides a range of offerings including serviced industrial land, pre-built factory sheds equipped with comprehensive utilities, and infrastructure that adheres to international standards. The corporation maintains a steadfast commitment to workers' safety and environmental protection.

### **Hawassa Special Economic Zone Investors Association (HSEZIA)**

The Hawassa Special Economic Zone Investors Association (HSEZIA) is a non-profit organization which represents the investors operating in the Hawassa Special Economic Zone since 2016.

The HSEZIA works closely with policymakers regarding policy advocacy, market linkage, social and environmental compliance, training and research activities to enhance the competitiveness of the apparel and textile industry in Ethiopia.

## Implementing Partner

### Sustainable Industrial Clusters (S.I.C.) II Project

In line with the Ethiopian Home-Grown Economic Reform, the British and German governments are supporting the country's pathway towards industrialization through the implementation of a joint project named Sustainable Industrial Clusters (S.I.C.) II. The project is implemented by the *Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH* under a co-financing agreement between the Foreign, Commonwealth & Development Office (FCDO) of the United Kingdom and the German Federal Ministry for Economic Cooperation and Development (BMZ).

S.I.C. II has the objective to strengthen the resilience of the textile and garment sector in Ethiopia.

Through its implementation, the S.I.C. II project is supporting the participation of promising companies to showcase their products at fairs. In addition, one-to-one matchmaking of companies is initiated based on concrete product requests from buyers.
