

## Project Portfolio Overview South Africa (only those relevant for this contract)\*

Project	Location	Private Sector Partner	Description
Green Business Value Chain: Regenerative Agri-chain	Limpopo	AvoVision	Leveraging bush encroachment to create MSMEs, unlocking additional value chains (agriculture), and creating sustainable rural green jobs in biomass beneficiation, land restoration and agriculture.
Project EMBRACE – Economic Mainstreaming of Black women and youth through Responsible market Access and value Chain transformation for an inclusive green Economy	Nationally	SASDC	Sustainably transforming black women- & youth- owned start-ups and MSMEs in green economy sectors by accessing talent (TVET graduates), corporate-led value chains, and new markets, through an ecosystem of multifaceted support.
Innovative Solutions for Waste	Mpumalanga	PlasticsSA	Removing all plastics out of the environment and finding innovative community solutions for the not-recycled waste portion to create sustainable jobs/enterprises for women and youth in the area.  (The primary focus is plastic waste but the project will focus on all waste.)
Esteem Green: Employment through STEM for gender acceleration and green transformation	Nationally	WomHub	Building the skills and early stage ventures in the green economy focusing on women and girls to accelerate gender parity
GreenGrowthGirls: Nurturing Women for Sustainable Agriculture	Limpopo	ClemenGold	Providing sustainable agricultural practice training in combination with biodiversity and conservation training for predominantly women and youth either venturing into the sector or already in employment in agriculture
IYBA-SEED	Nationally	Various	IYBA-SEED takes an “Ecosystem Strengthening” approach: it targets the entrepreneurship ecosystem and its actors, in order to reach young businesses (i.e. SEED beneficiaries)
