About GIZ

The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is an international cooperation enterprise for sustainable development with worldwide operations. Its objective is to improve people's living conditions on a sustainable basis.

The German Development Agency GIZ (Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is a federal enterprise supporting the German government in promoting international cooperation for sustainable development and international education work. GIZ's main commissioning party is the Federal Ministry for Economic Cooperation and Development (BMZ) along with a number of other German Government agencies and international clients include the European Union, bilateral and private sector donors, and multilateral funding institutions.

About the project

In the context of the bilateral cooperation between the Government of Germany and the Government of Indonesia, GIZ has received a new commission from the Federal Ministry for Economic Cooperation and Development (BMZ), and multilateral funding from Green Climate Fund (GCF) for implementing the project "Land-based Mitigation and Adaptation Through Jurisdictional Approach in West Kalimantan".

After receiving approval within GCF board meeting for the cross-cutting project, GIZ is now preparing for implementing the project cooperation with respective ministry and province authority. The envisioned cross-cutting project will support the implementation of the Indonesian social forestry initiative and the REDD+ strategy to contribute to the achievement of the FoLU Net Sink target by targeting the main drivers and underlying causes of deforestation and forest degradation. The Project improves forest and land-based governance, strengthens forest management units, implements and upscales social forestry models and community territories, and promotes sustainable agricultural business practices in existing smallholders through collaborations.

The project objectives are to achieve a paradigm shift through a landscape approach to forest and land management to foster low emission and climate resilient sustainable development pathway balancing protection and production. The project will focus on the following three components: (1) Strengthening the institutional regulatory framework for climate informed landscape planning, (2) Scaling up of climate-resilient and low-emission agricultural and agro-forestry practices, (3) Implementing community-based forest and landscape management. Implementation of the project at West Kalimantan Province to be decentralised in 5 (five) regencies; Kapuas Hulu, Sintang, Ketapang, Sanggau and Kubu Raya.

GIZ is recruiting an Indonesian qualified candidate for the position of:

Forestry and Biodiversity Advisor

A. Core Tasks

In your role you are responsible for the technical, substantive and organizational implementation of a project's measures and activities.
