About GIZ

The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is an international cooperation enterprise for sustainable development with worldwide operations. Its objective is to improve people's living conditions on a sustainable basis.

The German Development Agency GIZ (Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is a federal enterprise supporting the German government in promoting international cooperation for sustainable development and international education work. GIZ's main commissioning party is the Federal Ministry for Economic Cooperation and Development (BMZ) along with a number of other German Government agencies and international clients include the European Union, bilateral and private sector donors, and multilateral funding institutions.

About the project

In the context of the bilateral cooperation between the Government of Germany and the Government of Indonesia, GIZ has received a new commission from the Federal Ministry for Economic Cooperation and Development (BMZ), and multilateral funding from Green Climate Fund (GCF) for implementing the project "Land-based Mitigation and Adaptation Through Jurisdictional Approach in West Kalimantan".

After receiving approval within GCF board meeting for the cross-cutting project, GIZ is now preparing for implementing the project cooperation with respective ministry and province authority. The envisioned cross-cutting project will support the implementation of the Indonesian social forestry initiative and the REDD+ strategy to contribute to the achievement of the FoLU Net Sink target by targeting the main drivers and underlying causes of deforestation and forest degradation. The Project improves forest and land-based governance, strengthens forest management units, implements and upscales social forestry models and community territories, and promotes sustainable agricultural business practices in existing smallholders through collaborations.

The project objectives are to achieve a paradigm shift through a landscape approach to forest and land management to foster low emission and climate resilient sustainable development pathway balancing protection and production. The project will focus on the following three components: (1) Strengthening the institutional regulatory framework for climate informed landscape planning, (2) Scaling up of climate-resilient and low-emission agricultural and agro-forestry practices, (3) Implementing community-based forest and landscape management. Implementation of the project at West Kalimantan Province to be decentralised in 5 (five) regencies; Kapuas Hulu, Sintang, Ketapang, Sanggau and Kubu Raya.

GIZ is recruiting an Indonesian qualified candidate for the position of:

**Policy Development and Forest Climate Protection Advisor
(Job title in SAP: Environmental Policy, Resources Efficiency Advisor)**

A. Core Tasks

In your role, you are responsible for a prominent area of specialist expertise within a cluster/large-scale project and for the organizational implementation of the project's measures and activities. You contribute to the conceptual design of the project, in particular its modification or realignment, and represent the cluster/large-scale project vis-à-vis external parties in consultation with your line manager.

You perform prominent tasks and provide technical and substantive contributions to overarching issues in cooperation with commissioning parties/clients, partners and other actors, thereby supporting the achievement of the agreed objectives of the given cluster/large-scale project and providing impetus for further strategy development.

You are also responsible for providing specialist support to colleagues in salary bands 2-4, and ensure the quality of the commission's outcomes.

In consultation with your team colleagues and line managers, you also coordinate all issues within your area of work and ensure that they are dealt with promptly and competently.

You provide competent advice in your thematic area based on existing regulations and with due regard for P+R.

You are involved in ongoing process development within your remit, are responsible for knowledge management and prepare and share documentation. If required, you also support other experts in familiarizing themselves with and performing their tasks.

In consultation with the country director or your line manager, you use your contacts both to act as a point of liaison for all matters in your specialist field and to strengthen alliances and cooperation arrangements on behalf of the company.

You are also responsible for knowledge management, such as training measures, in your thematic area.

You perform the tasks assigned to you by your line manager, where required.
